PROFILE

Computer Science undergraduate at Ton Duc Thang University with strong foundations in Information Technology and Software Development. Skilled in Python scripting, Git, and CI/CD pipelines, with over 3 years of teaching/mentoring experience that strengthened my communication, teamwork, and problem-solving skills. Passionate about DevOps/SRE and eager to apply technical expertise to build and automate reliable applications in an international software development environment. Seeking the opportunity to grow, contributing energy, adaptability, and a continuous learning mindset to succeed in the tech industry.

EMPLOYMENT HISTORY

Mar 2022 — Feb 2023

KDI Education, Teaching Assistant

- Prepared teaching materials and set up necessary equipment before each class to ensure smooth lesson delivery.
- Managed student attendance and maintained accurate records.
- Ensured a clean, safe, and organized classroom environment that supports effective learning.
- Assisted the lead teacher during lessons by supporting student engagement and reinforcing key concepts.

Aug 2022 — Dec 2022

mangoSTEEMS Vietnam, Teaching Assistant

- Assisted the lead teacher in designing and organizing effective lesson plans tailored to student needs.
- Collaborated with instructors to identify learning challenges and proposed appropriate interventions.
- Provided additional instruction and clarification to students requiring extra support to grasp key concepts.

Apr 2023 — Aug 2025

Algorithmics Vietnam, Programming Teacher

- Independently led coding classes for students aged 7–18, covering curriculum topics such as Scratch, Python, and Lua.
- Took full responsibility as the main instructor for multiple classes, ensuring lesson delivery, student engagement, and classroom management.
- Adapted teaching methods to different age groups and learning styles, helping students develop logical thinking and foundational programming skills.
- Monitored student progress, provided constructive feedback, and maintained communication with parents to support student development.
